SAFE WRECKED; YEGGS ESCAPE WITHOUT LOOT

SALT LAKE, April 24.—Though the large safe of the Solomon-Ingram shoe store, 41 east Broadway, was wrecked by yeggs last night, no loot was secured, the police report. Entrance to the store was gained by smashing a panel in a rear door. The burglars are thought to be the same gang that has been forcing entrance to several east Broadway stores during the past week.

Although explosives were used in cracking the safe, no discovery of the attempted theft was discovered until this morning. The safe is valued at \$500. Detectives assert that nitroglycerine was used to open the safe. Both doors were blown from their fastenings. Numerous footprints on the floor and in the alleyway were left by the burglars.

MOONSHINERS' HANGOUT FOUND

Prohibition Officers Claim They Have Located Nest of Illicit Still

SALT LAKE, April 24.—With raids made in Carbon and Emery counties, federal agents connected with the Salt Lake federal prohibition offices are of the opinion that they have penetrated the stronghold of Utah "moonshiners," according to word given out by Nathaniel Thomas, federal prohibition director for Utah. Joseph Cheplak and wife and John Green of Mohrland, have been arrested and are being held at Price, pending the arrival of United States Deputy Marshal Carl W. Blair, who left Price last night with warrants for their arrest. Nearly 125 gallons of wine, 500 pounds of raisins and 125 gallons of raisin mash were taken at the Cheplak home, it is stated. The Green residence yielded 30 gallons of wine and 200 pounds of raisins, say the officers.

This is the third raid of a series which have been planned with the view of breaking up a nest of violators of prohibition laws, alleged to be operating in that district.

Charles Storey, Gilbert Randall, Roy and Harold Pettigrew, sons of County Crop Inspector C. N. Pettigrew, took an active part in the entertainment. A clever little skit, "The High Cost of Living," was staged by J. W. Gibson, Emma Johnson and James J. Cude.

The HOOVER demands the Unconditional Surrender of Dirt

When The Hoover goes over the top in its drive against entrenched Dirt, Dirt comes up out of even its deepest dug-outs in the carpets and does a quick Kammerad.

The Hoover fights clean but grants no armistice. Immediate evacuation of all occupied carpetings and the full restoration of their cleanliness and colorings are the only peace terms for Dirt.

Dirt quickly recognizes a Hoover attack. Camouflage is useless. First the carpeting quivers as though stricken with ague. That's the Hoover's creeping barrage loosening up the deep-down minions of Dirt. Then comes a wave-like motion; the carpeting is lifted from the floor and on the crest of the wave receives a rapid-fire drumming that no hidden Dirt can escape. And the crest is swept resistlessly—Dirt cannot cling in any spot. Simultaneously comes the Hoover air attack—and Dirt is "bagged."

Now you know why Dirt surrenders unconditionally when a Hoover advances. And yet The Hoover reconstructs as it passes—straightens up and rearranges the crushed, tangled nap, beautifies the colorings anew and leaves the rug or carpet in condition to wear much longer than when its enemy, Dirt, lurked therein.

Only The Hoover can win so complete and happy a victory. For when you—

Montana All for Californian; Nevada Delegation in Favor of Wood

HELENA, Mont., April 24.—Returns from the Montana presidential preference primary trickling slowly into newspaper offices tonight increased the lead of Senator Hiram W. FEDERAL TAXES ENORMOUS SUM

Two and One-half Years' War Taxation Equal Previous Fifty-five Years

WASHINGTON, April 24.—Government revenues since September, 1917, about equalled revenues for the fifty-five years prior to that year.

The internal revenue bureau announced tonight that in the two and one-half years of war taxation, revenue receipts aggregated \$11,481,109,000, while for the fifty-five year period they were \$11,582,000,000.

The collection of this sum was in the hands of former Commissioner Roper, during whose term yearly amounts were: From September, 1917, to June 30, 1918, \$3,545,235,000; July 1, 1918, to July 1, 1919, \$3,850,150,000 and from the latter date to March 31 of this year the last collection date, \$4,085,723,500.

The main sources of revenue of the government upon the date the bureau was created in 1862 until 1900 were taxes on liquors and tobacco. A new era of taxation came in on August 5 of that year, which marked the advent of income and excise taxes on corporations. But, it was not until America entered the war that the heaviest taxes known to history were levied.

Prior to 1917, the government collected revenues in excess of \$500,000,000 in only one year. In 1916, the receipts were \$812,702,000, the figures showed.
